MBA Foundation Course Information The MBA foundation course component is designed to provide the essential business knowledge and skills required for successful completion of the MBA program. The undergraduate foundation courses provide a non-business undergraduate student a knowledge-base comparable to that of a student with an undergraduate business degree. *Students admitted Fall 2007 or later: Before students enroll in MBA courses, with the exception of MMIS 500 and MBUS 501A, all foundation courses must be completed*

MMIS Foundation Course Information It is highly recommended that students complete MMIS foundation courses or their equivalents prior to taking graduate-level MMIS courses

Foundation Course Waiver Information
Some or all of the foundation courses may be waived through a variety of means:
- ✓ Completion of comparable coursework from a regionally accredited college or university with a grade of "B" or higher, and completed within the last ten years from date of admission to the MBA program.
- ✓ Successfully passing an examination addressing the course content. A foundation course may be challenged by exam only one time.
  - o CLEP Exam *OR*
  - o Faculty-developed exam, administered at discretion of business faculty.

It is the responsibility of the MBA applicant to demonstrate why/how a foundation course should be waived.
Waivers are not granted based solely on work experience. The MMIS and MBA faculty make the final determination of a waiver.

<u>**Effective Fall 2008**</u>: **All MBA, MSMIS, and Dual Degree students who earn a grade of "C-" or lower in a foundation course completed at UMW must retake the course and earn a "C" or higher.**

II. MBA/MSMIS Core Courses (60 credits) *All courses three credits unless otherwise noted*
